

Dear Friends,

We are so happy and blessed to be able to report that the foundation of the first building of the missionary training center is finished! We feel such an urgency to train and send out workers to the harvest field, so we

started the construction by faith. We thank God for His provision that has gotten us this far!

The next step is raising the walls and we need your help! Each brick costs 80 cents and we estimate we will need 8000 bricks. We have 1110 bricks donated so far. Would you prayerfully consider donating a brick so that the construction can continue moving forward? We have made a website with Youcaring so it is easy to donate using Paypal or a credit card. Though the fundraiser will be active for 73 more days, your donation will reach us immediately, so please donate today!
