

..the people living in darkness have seen a great light;
on those living in the land of the shadow of death a light has dawned."
Matthew 4:16,NIV

Dear Friends,

We are very excited about a new project to help the community of Gotani with clean water. Right now the ladies fetch contaminated water from an open dam. Now that we are living in Gotani, the ladies have already come to our house asking for clean water, so we see the need and would like to help them.

We have built a water tank that holds enough water (at least 18,000 liters) to effectively help the community with clean water. Our idea is to fill the tank and then sell water at a very subsidized price, we would then put that money towards buying water for the next month. We can fill the tank for about \$200, and the amount we would get back is about \$20, so we would like to give you an opportunity to participate with us in providing clean water for our neighbors! We estimate we would need about 2-3 tanks per month, so we are looking for between \$320- 500 in monthly support. Another option is to make a one-time donation of one-tank of water for \$180.

If you or your small group, Bible study or Sunday School would like to participate monthly please let us know and we will send you the details of how you can contribute.

Together we can make a difference and bless the community of Gotani!
